

World Strip Poker Championships Tournament Structure

- Starting stack 1000 chips
- Each player gets 4 'rebuy chips'
- Each player wears 5 items of clothing

When a player loses all their chips, they must remove an item of clothing and exchange a rebuy chip for more chips equaling 5 big blinds, the amount of which is decided by the levels below.

The dealer will keep these 'rebuy chips' and issue players with their rebuy.

Blind levels will rise every 20 minutes and are set at:
